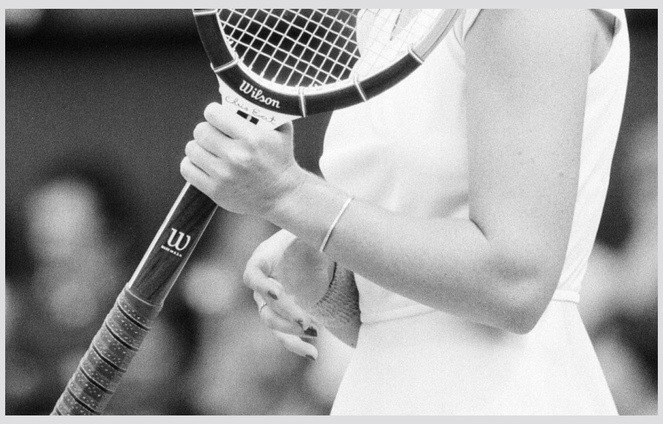
As their rows of continuous stones add glamour to any evening dress, bring any jeans-based casual look to life and are the perfect partner for poolside chic this summer. They really are one of the most versatile and glamorous items you could have in your jewellery collection.

Never heard of a Tennis Bracelet?

Before they were renamed Tennis Bracelets, these rows of sparkling stones were known as eternity bracelets and were given as a token on undying love.

Back in 1987 there was a very glamorous World Number One tennis player called Chris Evert. She was famous for her love of these bracelets and she wore them in all her matches. It was in the U.S. Open that year that she made headlines by stopping the match to look for her diamond bracelet. It had worked its way loose during an exceptionally long rally. Ever since then, these elegant bracelets have been given the name "Tennis Bracelets".

All of which is great news for us. Just because we're never going to win Wimbledon, it doesn't mean that we can at least dress like a champion!



Mixed Doubles

Not only are our tennis Bracelets the jewellery box essential for every stylish lady around town, but we've extended our range to include men's bracelets too. They have become such a hot item that we've been hearing all about our customer's partners raiding their collections, so we've designed some especially with him in mind.

All delivering that same DiamonFlash® sparkle and lustre, but designed and hand finished with a more masculine setting, creating a strong statement piece.

So now you can match your partner's Tennis Bracelet for a game of doubles, with a His & Her power-couple look that is beautifully understated and stylish

Set Point

Let us tell you a little about how our Tennis Bracelets make such an affordable, dazzling and must-have addition to your collection. Each bracelet is made from of a platinum tone metal blend, which is the perfect base to bring DiamonFlash® Cubic Zirconias, or our finest quality diamond simulants to life. Which is the perfect foundation to compliment the stones as they sparkle and dance on your wrist.

Available in a variety of lengths and colour, in both men's and women's styles, they are the perfect accompaniment to any summer look, creating an air of timeless glamour whenever and wherever you wear them.

Perfect for a LOVE match

Let's not forget that the Tennis Bracelet started it's life as an Eternity Bracelet, give as a token of never-ending love. Which is why they are also the item of choice for glamorous modern brides. They bring a timeless elegance to any wedding dress, bestowing that air of sophistication. Not only that, but they make the perfect thank you gift for your wonderful and supportive Bridesmaids.
Just don't forget the groom and best man, with our men's range!

Perfect fit for a perfect look

Whether your treating yourself, your partner or a friend, our affordable and stylish Tennis Bracelets make a perfect and elegant gift.

Finding the right size couldn't be easier too. If it's a gift, then get them to try one of your existing bracelets on for size. Just tell them you want to see what it looks like on someone else's wrist. Pay attention to the fit, you'll want to see if it's too big, or too small. Then simply lay the bracelet out flat and measure it and make the appropriate adjustments.

If it's for you we suggest that you wrap a piece of ribbon around your wrist. Then mark where the point meets the ribbon. Once you've done that, lay the ribbon out and measure the end to the point at which it met on your wrist. We would suggest that you allow an extra 30 cm to make sure you get a comfortable fit.

Enjoy the summer and enjoy your glamorous new look!
